AS YOU SEE IT

Kudos to Monning on health care

Kudos to Assemblyman Monning for stating, in a recent Sentinel article, his desire to see children's health benefits expanded by the state. In fact, we hope he will pursue covering all California children in his newly elected post.

Monning's commitment is needed now more than ever. Recent budget decisions have left the children's health safety net in a precarious position. By 2010, 400,000 children who currently have health insurance could lose it, bringing the total number of uninsured kids to over 1 million.

We urge Assemblyman Monning to make sure that children's health is a top priority in our state's budget. A plan and funding to cover all children is critical to ensuring good health and it's exactly the type of cost-effective reform we need. We hope Monning will fight for healthy kids in Santa Cruz and all of California.
